Docket No. 98N-1265
Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I was in shock when I heard that
could happen that I won't be able to get my
hormonal prescriptions in the future. for me, the
way that work out the problems related to the
perimenopause has been so supporting and
perfect for me that I don't want to deal
with that again. If it hadn't been personalized
prescriptions, I don't think that I will have been
ready for a trial.

Thank you for the attention giving
to my expression.
